## Hair Salon Janitorial Service

Hair salons need to maintain a certain image for clients to keep coming back. Many people look to develop a connection between themselves and their barber or stylist, but they also look for basic cleanliness at the salon. Although significant amounts of hair are cut and swept away on a daily basis, no client wants to see this hair remaining in view for any period of time.

If you need a professional janitorial service to help you keep your salon clean and to dispose of the hair that you cut regularly, we can help. For more information, contact GCW Building Maintenance, Inc. by calling 952-467-6209 today.

## Hair Salon Cleaning Issues

When a salon owner wants to improve their business, they should consider what kind of message the cleanliness of the storefront sends. If the floors are left dirty and unwashed, this can turn customers away quickly. On the other hand, an impeccably clean space can make people feel welcome and encourages repeat business.

We can help with the following cleaning issues:

- Floor Waxing
- Buffing
- Water Extraction
- Dusting
- Window Cleaning
- Restroom Cleaning
- Move-in, Move-out Cleaning
- Trash Management
- General Upkeep
- Green Cleaning
- General Health Cleaning

Both as a matter of business and sanitation, a salon owner should care for their store properly by letting a professional handle their cleaning needs.
